

ALUMINUM DECK DRAINAGE SYSTEM

Relaxing, entertaining, and grilling are many of the ways to enjoy the outdoors. Now you can enjoy it even more by transforming the space beneath your elevated deck with an aluminum deck drainage system.

DISTRIBUTED BY:

Our underdeck comes complete with a gutter system to capture and drain the water that runs from beneath the deck planks & it is designed to drain water away from the house. It is also versatile and can be customized to fit virtually every size requirement, including around chimneys and bays.

The system is an all aluminum construction with a baked-on finish.

Available colors are:

WHITE & IVORY.
